

WHOM THEY WISH

(Continued from Page 1)

not been in vain. In spite of his long term plan to take us over, the mere thought to-day of resistance to the menace of Communist enslavement has come to be regarded as a sort of treason to the cause of peace. No political leader, however deeply convinced of its necessity, dare advocate a strong uncompromising stand in Europe or in Asia because to do so would be to commit political hari-kari. North America to-day compromises in its population a truly alarming number of naive defeatists; of innocent lambs ready — eager, one would almost be tempted to say — to be led to the Communist slaughterhouse. Among other things we must be "realistic" about the present last stand of freedom in Asia, even though the Communist time table calls for the conquest of all Indochina by next sum-

Hundreds of great patriotic generals such as Major Gen. Kirke B. Lawton (above) dare not speak on behalf of their country.

mer and the fall of Indonesia almost as soon as they are prepared to call the turn. As we value our prosperity and fear the hydrogen bomb let us not make any serious attempt to alter the status quo. Pay any price, any time, for any "cease fire" anywhere on God's earth, even the price of handing the whole of Asia over to Communist domination. See to it that there will never be any further attempt to liberate the Chinese Mainland. Eliminate the troublesome Chiang Kai Shek. Bottle him up forever on Formosa, or, for that matter, in exile and see to it that the mighty U.S. Seventh Fleet is used for nothing else but to ensure the surrender of some of his vital off-shore islands. Invite the murderers of priests and sisters and American uniformed men to the conference table and welcome them as "respected" members of the United Nations. Condone. Appease. Pretend. But above all, forever surrender. Peace in our time, wherever we've heard that before. Bury our heads in the sand of an unprecedented economic prosperity and hope — oh, just somehow — that it cannot happen here.

Not All Defeatists

Thank Heaven not all people have given up. A few brave souls here and there in America keep trying to arouse the country from its sleep of death. I have before me an interesting letter from one such lecturer not perhaps so nationally known, a lady who has consistently spoken out against the Communist menace, who has been hounded and persecuted and finally forced to sell her home and move out of her home State. Hear what she has to say on this subject: "I believe the same diabolical plans will be duplicated in America, for the men who are dedicated to the worship of Lucifer are bound to crucify the followers of Christ. They are a bunch of sanctimonious, holier-than-thou hypocrites. Watch them crucify McCarthy. Yes, we do need many prayers. But let me ask you this. Do you think the general run of Christians have any inkling of the danger all around them? Is it not a fact that people do not pray unless they believe they need it? When I try to draw their attention to what I know they look at me with a blank, dubious stare. Human beings do not come to their senses until they suffer themselves.

So I suppose we are going to have to suffer before there is an awakening."

Bishop O'Gara's Warning

I have heard Bishop Cuthbert O'Gara discuss this subject at length. He is distressed and deeply disturbed over this stupor of apathetic complacency, the failure of people by and large to recognize the very real danger of the Communist blueprint for America. And Bishop O'Gara knows all about Communism from first hand experience. He was accorded the privilege of "peaceful co-existence" for many a day in China, for the whole agonizing twenty four months he spent in solitary confinement in an old hut located between a pigsty and a latrine. A recent interview he granted the Press in Pittsburgh should do much to awaken those benighted individuals who still favor perpetual appeasement of Red China. "The people of the United States" he warned, "do not appreciate the magnitude of the defeat the West has suffered since 1945. It is incredible that such a small group of pro-Communist pseudo-intellectuals should have effected in so short a time one of the greatest turnovers in the history of mankind."

Defeat Had Been Engineered

Bishop O'Gara stated that this defeat could not be blamed on mere stupidity but had been deliberately and cold-bloodedly engineered. "No group of Americans" he said "could be that stupid. The deliberate throwing away of Victory after World War II is confirmed by the whole list of 'stupidities' since VJ Day. And these stupidities are still going on. Someone is still directing the sell-out."

Fruits for Meditation

Apropos of what would happen in America should the Reds take over, I have before me at the moment a document that affords fruit for meditation. It is a list of 192 victims of the Communist persecution in China, and the list is admittedly incomplete. Read for yourself the nature of the treatment

This man was one of the few great Senators who had the courage to speak out for America.

meted out to those martyred servants of God. Then bear in mind that the same world conspirators are planning a similar fate for millions of people in this country. With the help of the liberals in our midst they have succeeded all too well in anaesthetising us with honeyed words about peace and co-existence while they sharpen the scalpels for Operation Take Over America. As you read these grim details of savage barbarity you will realize that today we are in very truth engaged in an all-out showdown battle against Principalities and the Powers of Darkness.

Father Charles Osnagy, buried alive, February, 1942; Father Humbert Verdinim, burned to death with some thirty Christians, July, 1942; Sister Anne Chang, dragged to death March, 1948; Father Joseph Chang, dragged, beaten, shot, October, 1947; Archbishop Cyril Jarre, O.F.M., died in jail, March, 1952; Bishop Byrne of Maryknoll, died after Korean death march, exposure and starvation, November, 1950; Bishop Ford, Maryknoll, died after release from jail, February, 1951; Father Francis Hsiao, died after tortures, Good Friday, 1950; Father Seraphin Shih (and many of his fellow Trappists) head crushed between stones.

So the story goes, for all of the 192 who were done to death, not to speak of the fifteen million who have been murdered,

many in similar ways you may be sure, since the "agrarian reformers" took over China. All this at the hands of the Red Chinese murderers who still hold hundreds of Americans in their filthy dungeons and who, if our nitwit liberals have their final say-so, will be permitted to shoot their bloody way into the United Nations. Truly — whom the gods wish to destroy they first make mad.

God is in His Heaven

So much for the human appraisal of the prospect confronting America. If we confine ourselves to the hope of a merely human solution of the problem we can only go along with the experts and agree that it is only a matter of time before the Reds take over. But we do not confine ourselves to a merely human solution. And therein lies our hope. For it is no exaggeration to state that the fate of America and the world lies in our hands. You may write off the diplomats and the politicians. But you may not write off the little people, close to God, whose fidelity and whose serious efforts at personal sanctification may conceivably have already saved us from the fate of Poland or Lithuania or China. After eight years of travel throughout the United States on our Pilgrimage I am firmly convinced that Communism will never take over America. Not that the lives of Christian people do not leave much to be desired. It is all too true that many of them, by their sinful disregard of the laws of God, are playing into the hands of the enemy, giving a new surge of life to diabolical Communism. It is the old story of Corruptio Optimi Pessima. Good people gone wrong have ever brought more misery into this vale of tears than all the pagans who live in darkness and the shadow of death. But it is equally true that the intensive spiritual efforts of a comparative few have so far held back the Hand of God from striking us in chastisement. For you and me the answer lies not in worrying about the deadly inroads of Communism but in concentrating upon the spiritual weapons that will bring about Communism's destruction. The greatest service that we today can render to a beleaguered civilization is to make a serious effort towards personal determined sanctity.

The Right To be Let Alone

I believe in the First Freedom: the right to be "let alone." During the days of Americanism, the Supreme Court ruled in the case of Olmstead vs. United States, 277 U.S. 478 (1928), as follows:

"The makers of the Constitution . . . sought to protect Americans in their beliefs, their thoughts, their emotions and their sensations. They conferred, as against the Government, the right to be LET ALONE — the most comprehensive of rights and the right most valued by civilized man."

Our present autocratic Supreme Court (backed by the Eisenhower Administration) has reversed this ruling — just as they did all previous rulings and precedents anent Amendment XIV to the Constitution — so that the only ones who may now enjoy full Constitutional rights unmolested, are the Alien Minorities.

Let's Reach A Half Million

If you think this is a good paper now, please help strengthen "COMMON SENSE" and we promise you a better paper. We are working to give you a weekly publication at no increase in subscription price.

Please feel you are a part of our group. Make this your paper and build it into a strong, fighting machine for Freedom. Don't say it is hopeless or there is nothing that can be done about it. Now that you understand the cause of the trouble, help make this knowledge known to those you think have an open mind.

If you will do everything you can to assist "Common Sense" to increase in influence and effect and reach a half million readers, we will knock this Marxist plague in the head.
